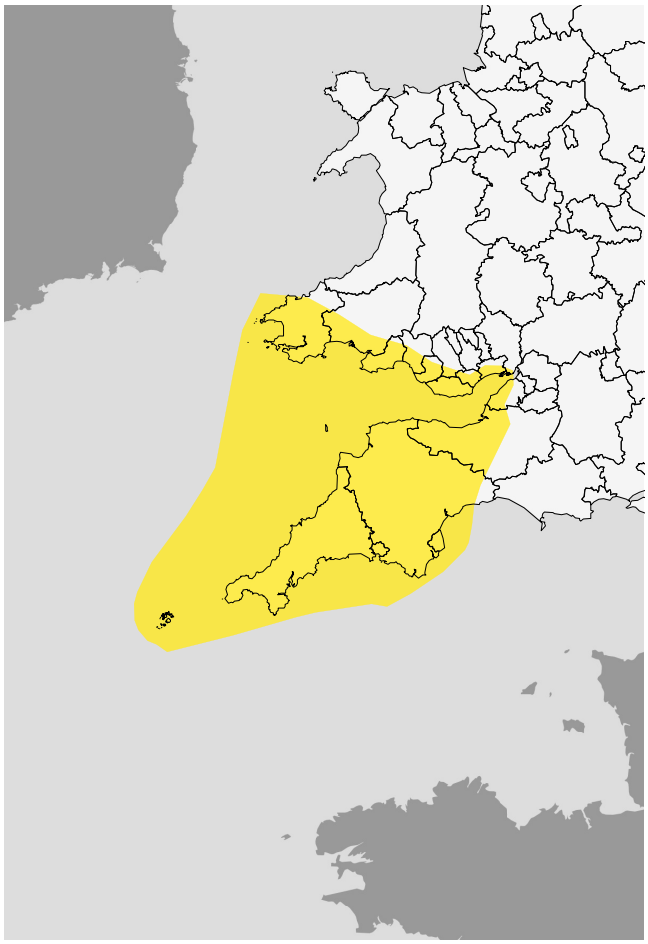
Yellow warning
Wind

Between
06:00 Mon 21 Nov 2022 and
18:00 Mon 21 Nov 2022



A small chance of very strong winds on Monday causing disruption to travel and utilities

What to expect

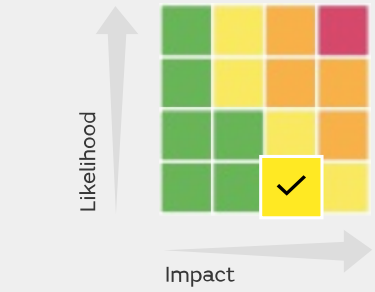
- There is a slight chance of some damage to buildings, such as tiles blown from roofs
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a small chance that some roads and bridges could close
- There is a slight chance that power cuts may occur
- There is a small chance of injuries from flying debris, large waves and/or beach material being thrown onto sea fronts, coastal roads and properties

Further details

A complex area of low pressure is expected to develop to the southwest of the UK on Sunday night with the potential for a small area of very strong winds to affect parts of southwest England and possibly South Wales during Monday.

There is a lot of uncertainty in both the locations affected and the strength of wind, but there is a small chance of gusts of 70-80 mph affecting coastal areas and 55-65 mph inland within the warning area.

The winds will ease from the west into the early evening.



Very low likelihood of medium impacts
